EXPERIENCE

NALCO
Frontend Intern

Angul, India
June 2024 – July 2024

- Spearheaded the development of a user-friendly guesthouse booking website using ReactJS and GSAP.
- Optimized performance and response times using static JSON databases.
- Improved UI/UX with scalable designs, boosting positive user feedback.

SKILLS

- **Programming Languages:** C++ , Javascript, SQL .
- **Frameworks:** NodeJS, ExpressJS, ReactJS, Tailwind CSS.
- **Tools:** Git, GitHub, VS Code, Netlify, Render, Postman.
- **Database:** MySQL, MongoDB.
- **CS Fundamentals:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Operating Systems, DBMS Concepts.

PROJECTS

HEALTH-MEET | MERN Stack Healthcare Appointment Platform

GITHUB

- Developed a secure MERN stack healthcare app with JWT auth, RBAC, and admin CRUD operations.
- Implemented password hashing, protected routes, and token management with Axios interceptors.
- Enabled appointment booking/canceling with dynamic dashboards and image uploads via Multer & Cloudinary.
- **Tools:** ReactJS, NodeJS, ExpressJS, MongoDB, JWT, Axios, Multer, Cloudinary, Netlify, Render.

GUEST HOUSE BOOKING | Responsive Booking Interface with Animation

GITHUB

- Developed a guesthouse booking app with dynamic forms to search and manage reservations.
- Stored booking details using Node.js and a lightweight static JSON database.
- **Tools:** ReactJS, GSAP, static-json-database, NodeJS.

POKÉMON EXPLORER | ReactJS website using Public Pokémon API

GITHUB

- Built a ReactJS app to browse 1000+ Pokémon using PokéAPI with dynamic search and detail view and implemented “Load More” to fetch Pokémon in batches; hosted live on Netlify.
- **Tools:** ReactJS, PokéAPI, Axios, Netlify.

EDUCATION

- **International Institute of Information Technology**
Bachelor of Technology: Electronics and Telecommunication

Bhubaneswar, India
2021-2025

CERTIFICATIONS

- **Learn C++ programming Beginner to Advance:** Udemy Credential URL
- **Postman API Fundamentals Student Expert:** Postman Academy Credential URL
- **Full Stack Development with React & Node JS:** GeeksForGeeks Credential URL

ACHIVEMENTS

- Earned 5 star on **Hackerrank** (link), solved 170+ questions on **CodeChef** (link).
- **Open Source Contribution:** Contributed to JGEC Winter of Code, SWoC with 5+ PRs merged; gained hands-on experience using Quine for open-source project analysis.
- Secured a rating of 1500+ in GFG coding contest (link)
